# ROSEWOOD

welcome home

## PROFILE

Rosewood has served Western Australia's aged community since 1953. The company began as an infirmary and was the founding institution behind Meals on Wheels.

Rosewood's longevity in the industry stems from a genuine care and compassion for the elderly and joy in helping them get the most out of their lives.

We cater for complex medical needs and specialist environments with diverse services and facilities to meet the challenges of an ageing population. Rosewood residents live in high-quality, safe, secure accommodation and access a range of health services, amenities and recreational resources, while enjoying a genuine experience of community living.

Our staff foster a culture of respect, dignity and compassion that empowers residents to live the best life possible, encouraging them to maintain connections with their family and friends, and participate in social and recreational activities.

Rosewood hosts regular outings for immobile, high-care residents and mobile residents; as well as planned in-house activities and special events to create a sense of companionship and independence.

We operate two premium aged care facilities conveniently located in West Perth and Leederville. Both the West Perth and Leederville residences are located in close proximity to the city, public transport facilities and entertainment and shopping precincts.

With increasing demand for places in our homes, we are creating a new community at our West Perth site. Our Leederville facility has just undergone a large redevelopment and is now home to 120 residents.

## VISION

To be Western Australia's preferred provider of person-centred and community-focused aged care services.

## MISSION

To provide premium care and enhance the quality of life of ageing people.

## ROSEWOOD'S FIVE PILLARS OF SERVICE

---

### RESPECT

We foster a culture of respect, dignity and compassion. We respect each individual and embrace cultural diversity. We act with dignity in all we undertake and act with compassion and understanding.

### COMMUNITY

We create a sense of community not only for our residents, their families and their friends, but for our staff too. We work collaboratively and in a unified manner.

### EMPOWERMENT

We empower our residents and their families. We empower our staff to provide person-centred care and enhance quality of life. This ensures quality of service and the experience our residents enjoy. We encourage all individuals to realise their potential.

## DIVERSITY

We embrace and foster diversity. Not only of our services, but our residents, our staff, and the experience we provide. This, in turn, promotes harmony and reinforces a culture of respect. We are inclusive and consultative.

## ETHICAL/INTEGRITY

We are ethical, respectful, honest and trustworthy in our dealings with people. We strive for best practice and take an evidence-based approach. We work effectively and professionally to achieve the highest standards of accountability and governance.

## LEEDERVILLE

Opening its doors in August, our modern Leederville location is now the home to 120 residents of varying medical backgrounds. With careful planning, we're proud to say that the environment at Leederville meets the specific social, medical and personal demands of our residents.

Care staff support the involvement and interaction with our resident's families and friends, while our "state of the art" security system supports easy access for them to visit whilst maintaining security for our residents.

The external environment is also a notable feature of the facility. The size, proportion, texture and organisation of the spaces were carefully considered during the design process to integrate with the colourful landscaping.

Naturally, our caring staff will encourage residents to express their needs and wants in an acceptable and measured manner, while still gaining personal & social benefits and retaining their sense of choice and independence.

Marrying a wonderful parkland environment with all the modern amenities of a leading care facility, Rosewood Leederville is a place where residents feel relaxed, safe and most importantly, part of a vibrant community.

## WEST PERTH

Our West Perth facility will be several steps ahead of Leederville. Located close to North Perth and the Leederville cappuccino strip, it integrates cosmopolitan Perth with the vibrancy of the Perth CBD. Situated only 2 kilometres from the Central Perth Railway Station, it will allow residents and their families to experience activities of the inner city.

The facility on Cleaver Street has a bus service right outside the main gate which allows easy access to public transport and is also close to all freeway entries.

Rosewood West Perth will provide 152 fully serviced rooms where care and accommodation form the very essence of its purpose. There are 8 different room configurations, each with a private ensuite, and completely integrated viva a sophisticated communication and building access system. Privacy, care and security is guaranteed. Throughout the facility there will be common areas and spaces for residents and families to come together and share what Rosewood offers.

Forming part of the development is the café/patisserie. The alfresco seating will integrate with the forecourt of the heritage cottage, Rosewood House, and will provide our residents and the broader community a delightful and relaxing experience.

Completion of the development is expected in mid 2021.

## STAFF

Rosewood provides a warm and welcoming atmosphere and our professional, competent carers work collaboratively to ensure residents are treated with respect and dignity, and their loved ones can enjoy peace of mind that they are enjoying a high standard of life.

All staff are dedicated to providing residents with a sense of companionship and work collaboratively to ensure they are treated with respect and dignity. We want our residents to live well-rounded, independent lives, and do everything we can to help.
